PERSONAL PROFILE

Hello, I'm Software Developer with experience in Ruby on Rails, Vue.js, Javascript, PostgreSQL, and using external API. I'm a graduate from Le Wagon programming school.
I've loved technology since I was a child and I believe it can change lives because of this I would love to be a part of that change. As I'm always in constant learning, I'm open to working and learning new technologies.

WORK EXPERIENCE

Nobordist

Ruby on Rails Developer | May 2021 - present

Nobordist is a startup that simplifies cross-border transactions between Brazil's digital buyers and online sellers throughout the world, its platform allowing it to ship, track & customs clear one's customs transactions worldwide.

- Activities include:
- Writing and implementing Ruby code using the Ruby on Rails framework;
- Developing back-end components and integrating them with front-end using the framework Vue.js;
- Carrying out troubleshooting in appropriate cases;
- Implementation of system improvements;
- Use of external API to implement in the system;
- Working with relational databases (PostgreSQL);
- Writing tests with RSpec.
- Performs teamwork and tasks alone.
- Familiarity with agile development (Scrum).
